OVERVIEW

RELEVANT EXPERIENCE

Mayank is an experienced and a certified Project Manager as well as a Scrum Master. I have lead several cross functional teams delivering large global roll-outs. As a Project Manager I focus on the project delivery, implementation, enhancement, maintenance, reporting, stakeholder and change management including UAT & training. Acted as a servant leader that listens to and supports my team. Encouraging them, I support their development as well as my own. I understand and empathise with others, Also, I enjoy working collaboratively and adjust my engagement style as needed. I am good at building strong relationships with people at all levels I enjoy learning and sharing knowledge and encourage my colleagues do the same. Furthermore, I communicate, coordinate, and cooperate to deliver the highest priority outcomes, removing impediments to their progress.
