Work Experience

Oct - 2011 to Till date Tactive Software Systems Private Limited, as **Senior Functional Consultant**
(Requirement gathering, Functional Consulting, Implementation Tracking)

(1) Present Organization: Tactive Software Systems Private Limited

TACTIVE is an integrated and customized multi-user and multi-location ERP system that meets the information needs of any business organization. The company is an end-to-end solution provider offering ERP-based solutions.

I have successfully implemented 15 Clients (End to End) for Construction in India & UAE.

Projects undertaken with Tactive:

(A) Project Name: Sri Gopikrishna Infrastructure

Gopikrishna believes that each project is as unique as each client. The company's core functions are Supply, Erection, and Commissioning. Tactive implemented Microsoft Dynamics 365 F&O to handle their current business processes. This implementation needs configurations and customization in modules like Accounts Payable, Accounts Receivable, General Ledger, Cash & Bank Management, and Fixed Assets.

Role : Working as a Functional Consultant.

Team Size : 7

Modules : Accounts Payable, Accounts Receivable, Procurement & Sourcing, Product Information Management, Inventory Management, Master Planning, Customer Service Management, and Production Control.

Responsibilities:

- Expertise in driving processes including system implementation, maintenance, support, and enhancements in generating a high-level MIS including its ease of use, and readability.
- Handling implementation activities on MD365 Finance and Operation.
- Business Process Study of Gopikrishna.
- Engaged in the creation of FRDs by interacting completely with the client and the users.
- Analyzed GAPS and FITS of the client's business processes with standard application.
- Configuration and Customization of finance module on client needs.
- Data conversion and migration.
- Handling simulation and mapping of the business processes and workflows.
- Validate the accuracy, completeness, and reliability of financial transactions and reports.
- Preparing Training plan, UAT document, Scheduling, and getting sign-off.
- Provide ongoing support to clients post-implementation.

(B) Project Name: Sree Infratech

Sree Infratech offers Infrastructure development and road projects with inspiring and innovative solutions using comprehensively recognized processes and a sophisticated, seamless range of solutions that gratify the most challenging demands. Support needs configurations and customization in modules like Fixed Asset, Accounts Payables, Accounts Receivables, General Ledger, Cash and Bank Management, and Inventory.

Role : Working as a Functional Consultant.

Team Size : 5

Modules : Fixed Asset, Accounts Payable, Accounts Receivable, Procurement & Sourcing, Product Information Management, Inventory Management, Master Planning, and Production Control.

Responsibilities:

- Expertise in driving processes including system implementation, maintenance, support, and enhancements in generating a high-level MIS including its ease of use, and readability.
- Handling implementation activities for MD 365 Finance.
- Engaged in the creation of FRD of new requirements from the client.

- Handling simulation and mapping of the business processes and workflows.
- Configuration and Customization of finance module on client needs.
- Data conversion and migration.
- Validate the accuracy, completeness, and reliability of financial transactions and reports.
- Preparing Training plan, UAT document, Scheduling, and getting sign-off.
- Responsible for supporting the operations of the client's business on MD365.

(C) Project Name: Airolink International Construction LLC, Dubai

Airolink Building Contracting is the foremost, leading construction contractor with a portfolio that includes some of the Middle East, Ireland, and India's most exemplary and ultra-modern construction wonders. The implementation includes the customization and configurations in Accounts Payables, Accounts Receivables, Inventory Management, General Ledgers, and Bank Management.

Role : Working as a Functional Consultant.

Team Size : 7

Modules : Accounts Payable, Accounts Receivable, Procurement & Sourcing, Product Information Management, Inventory Management, Master Planning, Customer Service Management, and Production Control.

Responsibilities:

- Handled implementation activities for MD 365 Finance.
- Engaged in the requirements capturing phase and FRD creations for the new requirements.
