## WORK EXPERIENCE

---

### Hakuna Matata Private Solutions Limited

Intern - Trainee Software Engineer

March 2022 - May 2022

### Quberooot Analytics LLP

Software Engineer

June 2022 - Jan 2024

### Kirshi Technology And Consulting Private Limited

Software Developer

Feb 2024 - Present

## EDUCATION

---

### Excel Engineering College

Bachelor of Engineering - Computer Science Engineering - 7.77

June 2018 - June 2024

## PROJECT

---

### eVidento

- Designed and implemented a responsive and user-friendly UI using **React CSS** and **JavaScript** ensuring accessibility for diverse user groups.
- Built robust **APIs** using **Node.js** and integrated them with a **MySQL** database to manage user profiles, progress tracking, and family programs.
- Utilized **Redux** for efficient state management to handle role-based access control and real-time updates.

### Child Management System (CMS)

- Worked on existing application by using **JAVA** for **API's** call and **Angular** for frontend.
- This project CMS understands the client's needs, goals, and expectations and tailors our services to meet requirements

### Family Matter Website (FMW)

- Designed and implemented a responsive and user-friendly UI using **React CSS** and **TypeScript** ensuring accessibility for diverse user groups.
- Built robust **APIs** using **Node.js** and integrated them with a **MongoDB** database to manage user profiles, progress tracking, and family programs.
- Utilized **Redux** for efficient state management to handle role-based access control and real-time updates.
