A S S O C I A T E   E N G I N E E R

## PROFILE

Over 2.8 years of technical experience in Microsoft Dynamics NAV and Business Central with strong knowledge in C/AL and AL languages. Proficient in customizing solutions, upgradation support and developing reports to meet client needs. Actively supported customers in flexible work timings across different time zones, ensuring timely issue resolution and continuous delivery.

## PROFESSIONAL EXPERIENCE

### Associate Engineer Development

Aptean-Madurai, Tamil Nadu

Full-time

August 2023 to Present • Full-time

- Worked on Equipment Depot Companies, involving multiple custom developments for reports, handled inventory management as a major area of focus, and contributed to Financial Management and Service Management modules.
- Worked on Food Manufacturing Products, performing extensive bug fixes for existing products and implementing new features across Sales, Purchasing, and Manufacturing modules.
- Engaged in upgrade processes from NAV to BC and BC to BC, resolving complex bugs and handling custom development activities to ensure on-time releases.
- Handled tasks related to .NET application integrations with Business Central using APIs.
- Involved in customer calls to solve complex problems and provide technical support during the upgradation process.
- Worked across flexible UK and US shift timings to ensure timely resolution of customer issues.
- Proficient in azure devops boards, repos and pipelines.

### Associate Engineer Development - Intern

Aptean-Madurai, Tamil Nadu

January 2023 to August 2023 • Internship

Developed and implemented automation solutions to improve processes and efficiency, including:

- Quoting Tool – for estimating upgrade efforts and custom development requirements.
- Project Ignite – involved in migration of customers from on-premise to SaaS.
- AI Chatbot Integration – trained and deployed AI chatbots to assist support teams, improving customer issue resolution speed.

# PROJECTS & ACTIVITIES

## Food Industry Products

- Worked on multiple food industry products including JustFood, Foodware, and DIN.
- Performed enhancements and bug fixes across 10+ customers, improving stability and user experience.
- Implemented new features across Sales, Purchasing, and Manufacturing modules to meet business needs.
- Major Clients: Cheese Merchants, PB Bakery, Bulk Barn, Dieffenbach's Potato Chips, Kagome, Maison Orphée, RL Schreiber, Uwajimaya.
- Skills Used: AL, Debugging, Microsoft SQL Server, Problem-Solving, Module Customization.

## Equipment Depot Product

- Worked for 1 major customer for this product with a high number of implementations across regions.
- Designed and delivered custom reports with Inventory Management as the core focus area.
- Contributed to Financial Management and Service Management modules, ensuring smooth day-to-day operations.
- Actively participated in weekly CI/CD releases, ensuring timely delivery of updates and bug fixes.
- Major Clients: Jeffery Allen, EQ Depot, Cross Country.
- Skills Used: AL, Debugging, Report Customization, Microsoft SQL Server, Azure DevOps (CI/CD).

## Upgrade and Data Migration

- Engaged in upgrade processes from NAV to BC and BC to BC, resolving complex bugs and ensuring seamless migration without data loss.
- Majorly contributed to Food Industry customer upgrades, providing support during migration activities.
- Actively worked in hyper-care support across flexible shifts (UK & US) to ensure smooth customer transition and issue resolution.
- Major Clients: Santa Fe Tortilla, Cheese Merchants.
- Skills Used: Business Central Upgrade, Data Migration, Debugging, Azure DevOps.

## Web App Integrations with Navision/Business Central

- Worked on .NET application integrations with Business Central using APIs.
- Majorly integrated for Food Industry products, covering Inventory Management and Manufacturing modules.
- Improved system interoperability and streamlined business workflows.
- Skills Used: .NET, C#, AL, Postman, API Testing, Azure DevOps.

## Report Implementations

- Designed and customized reports across Food Industry products and Equipment Depot product based on customer requirements and product enhancements.
- Delivered financial reports focusing on Tax/VAT calculations, tax breakdowns, and compliance reporting.
- Implemented customized invoice, purchase, and sales reports tailored to client-specific business processes.
- Optimized performance of large reports with SQL queries and efficient AL design, ensuring faster execution for high-volume data.
- Major Clients: Jeffrey Allen, Cross Country, Santa Fe Tortilla, Cheese Merchants.
- Skills Used: AL, Report Customization, Business Central Finance & Inventory Modules.

## Automations using Business Central

- Quoting Tool – Built automation tool to estimate upgrade efforts and custom development requirements.
- Project Ignite – Contributed to migration of customers from on-premise to SaaS, improving efficiency.
- AI Chatbot Integration – Trained and deployed AI chatbots for support teams, reducing customer issue resolution time.
- Skills Used: C#, .NET, Prompt Engineering.
