AWARDS

CORPORATE QUIZ-19

Nov '19

The Institute of Company Secretaries Of India

Participated in the Corporate Quiz '19, a competitive event organized by [Company Secretaries of India], designed to test knowledge on a wide range of topics, including business, current affairs, industry trends, and corporate strategies. Successfully completed the quiz and earned a certificate for demonstrating strong analytical thinking, quick decision-making, and a broad understanding of corporate dynamics. This experience helped enhance my knowledge of business concepts.

Computer Course

Mar '15

Apple Educational Publisher

Successfully completed a 1-year computer course at (Apple Educational Institute) during 6th grade, where I gained foundational skills in computer literacy, including basic programming, word processing, spreadsheets, and internet usage. This course enhanced my understanding of technology and fostered an early interest in computers and IT. I developed proficiency in tools such as Microsoft Office (Word, Excel, PowerPoint) and gained hands-on experience in basic coding concepts and problem-solving skills.

PROJECTS

ERP Implementation Project (Gishnu Gears)

ERP Implementation Project for Gishnu Gears Project Overview: Gishnu Gears, a leading manufacturer of gear spare parts and industrial tools, initiated an ERP implementation project to optimize its manufacturing processes, streamline inventory management, and improve operational efficiency across its departments.

ERP Implementation Project (CAI Mahindra)

Present

Implemented and configured an ERP system for CAI Mahindra, Integrating Seven modules: Purchase, Sales, Inventory, Admin, GST, Finance, and a customized Vehicle module. The Vehicle module was specifically tailored to handle RTO order processing, registration entries, and vehicle invoicing. Streamlined workflows, ensured GST compliance, and provided comprehensive user training, resulting in enhanced operational efficiency and improved data accuracy across all departments.

ERP Implementation Project IFC (Industrial and Fluid Power Consultants)

Present

Led the end-to-end implementation and configuration of a comprehensive ERP system for the IFC project, integrating nine core modules: Sales, Purchase, Inventory, Finance, Admin, Quality, Planning, Production, and Subcontract. Collaborated closely with stakeholders to gather requirements, map existing business processes, and tailor ERP functionalities to meet operational needs. Played a key role in streamlining interdepartmental workflows, enhancing data consistency, and improving process transparency. Delivered extensive user training and post-implementation support, resulting in increased efficiency, accurate production planning, and improved coordination across departments.
