

PROFILE SUMMARY

As a passionate and detail-oriented Software Testing Engineer, I am skilled in manual and automation testing, with hands-on experience in analyzing software quality, executing test cases, and ensuring product reliability. With a solid academic background in Computer Science and knowledge of Selenium, SDLC, and STLC, I aim to contribute to developing high-quality software through effective testing practices.

I am a quick learner with strong analytical and problem-solving skills, eager to begin my career in QA / Software Testing and contribute to continuous improvement in product quality

EDUCATION

- Govt Arts College

Master of ScienceinComputerScienceCGPA:8.76

Bachelor of ScienceinComputerScienceCGPA:7.86

2017-2018

PROJECTS

GLOBAL LAND DEAL HUB (2023–2025)

- A web-based platform for managing real estate transactions (buying, selling, renting).
- Performed requirement analysis, identified test scenarios, and prepared test cases for all modules.
- Conducted functional, regression, and system testing to ensure platform stability.
- Created bug reports and tracked issues using Excel/Google Sheets.
- Applied security testing concepts to verify DES (Data Encryption Standard) implementation.
- Tools/Technologies: PHP, MySQL, Selenium (basic), Manual Testing Concepts.
- Outcome: Improved application performance and reduced post-deployment issues.

RESTRO MASTER SYSTEM (2022–2023)

- A restaurant management system for handling billing and inventory.
- Designed and executed test plans and scenarios to validate menu updates and order processing.
- Conducted UI and usability testing for order management modules.
- Performed database validation testing using MySQL queries.
- Tools/Technologies: Python, MySQL, Manual Testing, Test Case Design.

TECHNICAL SKILLS

CERTIFICATIONS

- Testing Skills: Manual Testing, Automation Basics (Selenium),
  - Test Case Design, Bug Reporting, Regression Testing,
  - Functional Testing, SDLC & STLC
  - Tools: Selenium WebDriver, Postman (API basics), JIRA (basic),
  - Languages: Python, Java, PHP
  - Web Technologies: HTML, CSS, JavaScript
  - Database: MySQL
  - Soft Skills: Teamwork, Time Management, Analytical Thinking.
- React JS
  - Full Stack Developer

STRENGTHS

- Strong analytical and problem-solving abilities
- Quick learner with attention to detail
- Good communication and teamwork skills
- Passion for ensuring product quality and reliability
