PROFESSIONAL SUMMARY

Motivated and detail-oriented System Engineer with 2+ years of experience in Microsoft Dynamics 365 (Finance, Operations, Retail, CRM), system support, and technical troubleshooting. Adept at managing large datasets, configuring third-party integrations, and supporting cross-functional business operations. Proven ability to enhance efficiency, drive user adoption, and resolve system issues in fast-paced enterprise environments.

TECHNICAL SKILLS

- ERP & CRM: Microsoft Dynamics 365 (F&O, Retail, Commerce, CRM)
- Database: SQL, MySQL
- Operating Systems: Linux
- BI Tools: Power BI, Excel, PowerPoint
- System & Support Tools: Active Directory, Manual Testing
- Other Skills: Incident Management, Functional Testing, D365 User & Security Role Management

PROFESSIONAL EXPERIENCE

NET ACCESS INDIA LIMITED — System Engineer

Project: Aditya Birla Fashion & Retail (Microsoft D365)

Nov 2023 – Present

- Validated and reprocessed MySQL transactions into D365 for operational accuracy.
- Optimized SQL scripts and created data pipelines for error-free batch job execution.
- Maintained item master, pricing, and product hierarchies across 300+ SKUs.
- Integrated and monitored Capillary, Paytm, and Gyftr systems with D365.
- Managed CRM module for customer engagement workflows and lead tracking.
- Troubleshot Omni-channel order failures and reconciled incomplete transactions.
- Configured workflows, approval chains, and retail POS parameters in D365.
- Worked with DevOps to log, track, and deploy fixes using Azure Boards.
- Conducted impact analysis and regression testing before pushing configurations live.
- Collaborate with business and technical teams to drive issue resolution and enhance system performance.

PROJECTS & ADDITIONAL CONTRIBUTIONS

Created dynamic Power BI dashboards for sales, returns, and discount tracking.

- Automated data validation using Excel macros for item code corrections.
- Collaborated on seasonal pricing campaigns and implemented discount rule logic.
- Built custom SQL views to support reporting for Finance and Operations teams.
- Delivered user training and created SOP documents for D365 modules.
- Led daily support calls with the business to triage open tickets and resolutions

SYSTEM IMPROVEMENTS & INITIATIVES

- Improved pricing update time by automating number sequence corrections.
- Identified critical bug in UAT testing, preventing potential 5-day launch delay.
- Established a standardized D365 item creation workflow, reducing duplicate entries.
- Documented over 50 SOPs for recurring issues and quick resolutions.
- Supported go-live transition across 100+ retail stores during regional rollout.
- Assisted with annual D365 license review and user audit compliance checks.
- Developed D365 system performance benchmarks and error logs for auditing.
- Initiated monthly internal system health checks, minimizing downtime.
