

VIGNESHKUMAR S

E N G I N E E R D E V E L O P M E N T

PROFILE

Over 3 years of technical experience in Microsoft Dynamics NAV and Business Central with strong knowledge in C/AL and AL languages. Proficient in customizing solutions, upgradation support and developing reports to meet client needs. Actively supported customers in flexible work timings across different time zones, ensuring timely issue resolution and continuous delivery.

PROFESSIONAL EXPERIENCE

Engineer Development

Aptean-Madurai, Tamil Nadu
September 2025 to Present • Full-time

- Currently handling food manufacturing products by fixing bugs, implementing new features across Sales, Purchasing, and Manufacturing modules, and integrating .NET applications with Business Central via APIs.
- Support across flexible shifts for the UK, US, CA, NA, and EMEA regions.
- Proficient in azure devops boards, repos and pipelines.

Associate Engineer Development

Aptean-Madurai, Tamil Nadu
August 2023 to September 2025 • Full-time

- Worked on Equipment Depot Companies, involving multiple custom developments for reports, handled inventory management as a major area of focus, and contributed to Financial Management and Service Management modules.
- Engaged in upgrade processes from NAV to BC and BC to BC, resolving complex bugs and handling custom development activities.

Associate Engineer Development - Intern

Aptean-Madurai, Tamil Nadu
January 2023 to August 2023 • Internship

Developed and implemented automation solutions to improve processes and efficiency, including:

- Quoting Tool – for estimating upgrade efforts and custom development requirements.
- Project Ignite – involved in migration of customers from on-premise to SaaS.
- AI Chatbot Integration – trained and deployed AI chatbots to assist support teams, improving customer issue resolution speed.
