PROFESSIONAL EXPERIENCE

Schneider Downs - Pittsburgh, PA

05/2022 – Present

Senior Functional Consultant

- Lead multiple end-to-end implementations of Microsoft Dynamics 365 Business Central, working closely with clients to understand their business processes and translating them into system requirements and configuration.
- Configure and customize Business Central modules (e.g., Finance, Sales, Inventory, Purchasing, and Fixed Assets) to align with client-specific needs, ensuring system meets functional requirements and business objectives.
- Provide user training and support, developing training materials, conducting sessions, and offering ongoing assistance to ensure clients can effectively use Business Central post-implementation.
- Diagnose and troubleshoot a full spectrum of support cases across all elements of NAV/BC ERP System (i.e., General Ledger, Accounts Payable, Accounts Receivable, Fixed Assets, Cash Management, Inventory, Warehousing, Deposits, Payroll, Reporting etc.) to determine an appropriate resolution.
- Work diligently with end users and partners, delivering high level of quality service for clients by performing advanced troubleshooting for complex BC issues and analysis for all versions of Dynamics NAV and Business Central.
- Collaborate with cross-functional teams, including developers, project managers, and stakeholders, to ensure smooth project delivery, troubleshoot issues, and provide expert guidance throughout the implementation lifecycle.
- Utilize ticketing system triage and manage support ticket queue and respond to client/partner inquiries in a timely manner while ensuring all support tickets are updated with

- pertinent information and notes in a professional and comprehensive format.
- Maintain high levels of customer satisfaction and retention through proactive communication, management of client activity, and using good judgement in determining when to collaborate with coworkers and when to escalate cases.
- Stay updated with the latest features, enhancements, and best practices of Dynamics 365 Business Central. Identify opportunities for process improvement and provide recommendations to clients.

Amadeus - Miami, FL

01/2022 – 05/2022

Consultant.

- Worked on a migration from salesforce to Business Central and validated files for all financial modules.
- Assessed opportunities for improvement to drive cost savings, and efficiency within the organization.
- Worked on diverse accounting functions including payroll, accrual, journal entries, and bank reconciliations.

MOLECULAR PRODUCTS INC - Louisville, CO

01/2018 - 10/2021

Senior Accountant

- Assisted in development and implementation of Microsoft ERP system for 3 entities over a period of 4 years.
