Professional Summary

Dedicated QA Engineer with 3.3 years of professional experience (plus 9-month internship) in Microsoft Dynamics 365 Business Central (Aptean Food & Beverage)- . Proven expertise in manual and Playwright automation testing, leading QA efforts across warehouse and non-warehouse modules. Skilled in functional testing, debugging, customer issue analysis, and regression automation. Known for delivering high-quality releases with zero functional breakage, mentoring peers, and maintaining strong collaboration with cross-functional teams.

Core Skills & Competencies

- Functional & Regression Testing (Microsoft Dynamics 365 Business Central)
- ERP Domain Expertise – Aptean Food & Beverage
- Warehouse & Non-Warehouse Testing
- Catch Weight, License Plate Management, Expiration, Planning
- Trade, Delivery Tolerance & Workflow Modules
- Mobile Warehouse Management Testing
- Business Central Upgrade Testing (v22, v24, v26)
- Playwright Automation
- Debugging & Root Cause Analysis
- Customer Interaction & Incident Management
- Customization Validation & Setup Support
- Test Case Design, Execution & Reporting (Azure DevOps)

Professional Experience

Aptean India Pvt. Ltd. – QA Engineer

Dec 2021 – Aug 2022 as intern | Aug 2022 - Present

Domain: Microsoft Dynamics 365 Business Central – Food & Beverage ERP

Key Responsibilities & Achievements:

- Owned **end-to-end testing** for multiple Food & Beverage products across all modules – *Purchase, Sales, Transfer, Production, License Plate, Catch Weight, Planning, Expiration, Workflow, Trade, and Delivery Tolerance*.
- Led and mentored QA team members in **test planning, prioritization, and daily scrum coordination**, ensuring timely, high-quality deliveries.
- Worked on **three major Business Central upgrades** (v22, v24, v26): analyzed new features, performed impact testing, and automated regression flows.
- Built and maintained **Playwright automation suites** for core modules, reducing manual regression effort.
- Collaborated directly with customers to **analyze and resolve functional and production issues**, offering setup guidance and real-time solutions.
- Independently managed **incident analysis, test case authoring, execution, and validation** for complex modules.
- Applied strong **debugging and analytical skills** to identify root causes and reproduce customer issues efficiently.
- Ensured seamless testing of **customizations and integrations**, maintaining functionality integrity across builds.
- Delivered product releases with **zero critical defect leakage**, reinforcing quality ownership across the QA process.
- Developed deep **functional expertise in Food & Beverage business processes** and warehouse operations.

Internship Experience

QA Intern – Aptean India Pvt. Ltd.

Dec2021 – Aug 2022

- Supported manual testing efforts for Business Central modules.
- Learned ERP product workflows and foundational QA processes.
- Assisted in initial automation and setup validation tasks.

Education

Bachelor of Engineering (B.E.) – Computer science Engineering

[K. ramakrishnen college of Technology], [2018-2021]

Certifications

- ChatGPT for Productivity – Udemy
- Playwright Automation Testing – Udemy
- Artificial Intelligence Fundamentals – Udemy
- Warehouse management in logistics and supplychain managemant
- Enterprise Resource Planning

Tools & Technologies

Microsoft Dynamics 365 Business Central | Aptean F&B | Playwright | Azure DevOps
| | Visual Studio Code | Power BI (Basic) | Excel

Achievements

- Successfully led QA efforts for multiple high-impact releases with **zero production issues**.
- Recognized for **debugging and customer-handling expertise**, resolving high-priority incidents quickly.
- Key contributor to **Playwright automation coverage** for end-to-end Business Central flows.
- Provided QA ownership during **major version migrations (v22 v24 v26)**
