- ✓ Through Business Study of Client & Business Process Consulting.
- ✓ Identifying the GAPs and give appropriate Solutions through workaround or customization
- ✓ Standard Document Preparation like Functional Requirement Document (FRD)
- ✓ Go Live & Post Go Live Support

School Management Integration (End-to-End Process):

- Implemented complete student admission lifecycle integration with Business Central covering:
 1. **Process Contact → School Tour → Opportunity → Student List → Admission Form → Re-Enrollment → Base Calendar → Send Offer letter → Offer Letter (Acceptance/Rejection).**
 2. Integrated data exchange between School Management App and Business Central using **API consumption and publishing.**
 3. Automated **Offer Letter Acceptance/Rejection** via **API consumption** from the School App to Business Central.
 4. Developed workflow for student status updates, fee invoicing, and academic scheduling.
 5. Designed **real-time reporting and invoicing modules** linked with admission and re-enrollment data.
 6. Configured integration through **Business Central API Ports (OData & API v2)** for seamless communication with external applications.
 7. Managed **vice-versa data sync**, ensuring data consistency between BC and School Portal (Contacts, Students, Offers, and Payments).

Customization & Module Development:

- Customized core Business Central modules as per client requirements using AL language.
- Developed custom modules for **Purchase Requisition, Request for Quotation (RFQ), Expense Management, and HR Payroll Reports.**
- Enhanced standard pages, tables, and reports to improve functionality and user experience.
- Created role-based dashboards and approval workflows for procurement and HR operations.

Purchase Requisition & RFQ Management:

- Automated PR and RFQ creation, approval, and vendor comparison workflows.
- Implemented logic for vendor shortlisting, quotation comparison, and purchase order generation.
- Developed custom reports for PR status tracking and RFQ analysis.

WHT (Withholding Tax) Module – Australia Localization – Developed a **custom Withholding Tax solution** for Australian version of Business Central

- Implemented **WHT setup, calculation, posting, and reporting** features as per **ATO (Australian Tax Office)** compliance.
- Configured **tax codes, thresholds, vendor-specific WHT rates**, and automated deduction postings.
- Integrated WHT with **Purchase Invoices, Payments, and Vendor Ledger Entries.**

Expense Management System:

- Designed a custom Expense Claim module integrated with G/L entries and approval hierarchy.
- Automated expense posting and reimbursement processes with Business Central finance.
- Created user-friendly pages for claim submission, approval, and reporting.

HR Payroll, ESS & MSS Development (Large-Scale Customization):

- Designed and developed **Employee Self Service (ESS)** and **Manager Self Service (MSS)** portals integrated with Business Central.
- Implemented features for **leave management, attendance tracking, payslip generation, and performance review.**
- Automated monthly **payroll posting**, employee reimbursements, and statutory compliance (PF, ESI, TDS).
- Customized payroll calculation engine to handle complex business rules and multi-location salary structures.
- Created advanced **HR dashboards and reports** for management insights and employee analytics.
