KAMALI B

D365 Business central Technical Developer

CAREER OBJECTIVE

Dedicated and skilled Business central developer with around 3 years of experience in designing, developing and implementing **Microsoft Dynamics 365 Business central** solutions. Proficient in **AL programming**, RDLC reporting, system customization, and client-specific extension development. Actively building expertise in integration, Azure DevOps, and upgrade processes to align with modern BC development practices. Seeking to contribute my expertise in delivering efficient and effective software solutions to drive business success.

EXPERIENCE

Accenture JAN 2024- May 2025
Business Process Dev Analyst

- Participated in the **end-to-end implementation** of a new Microsoft Dynamics 365 Business Central solution from a **scratch** for a pharmaceutical company, replacing their legacy web-based ERP system.
- Involved in all phases of the implementation lifecycle including **requirement analysis, solution design, development, testing, data migration, UAT, go-live, and post-go-live support**.
- Worked closely with functional consultants to gather and translate business processes into technical designs.
- Created **technical documentation** and assisted in user training and support post-deployment.
- Worked with **Azure DevOps** for version control, **CI/CD**, and task tracking.
- Participated in technical estimations, planning delivery timelines, and **sprintbased development**.

Tata consultancy services JULY 2022- Jan 2024
Assistant System Engineer

- Worked in customization team as a **BC developer** with customized Microsoft Dynamics 365 Business Central to align with client requirements, including modifications to data fields, page layouts.
- Conducted comprehensive **system testing** and resolved bugs.
- Customized various modules like **Sales , Item and Customer**.
- Assisted in field mapping and supported data migration and configuration activities
- Documented technical designs, code changes, and system configurations.

CERTIFICATIONS

- Microsoft Business Central Functional Consultant Associate
- Microsoft Power Platform fundamentals
- Microsoft Dynamics ERP fundamentals
- Microsoft Power BI Data Analyst Associate
