ABOUT ME

Results-driven D365 Technical Consultant with nearly 3 years of experience in Microsoft Dynamics 365 Finance and Operations (F&O). Brings a strong technical foundation and hands-on expertise in customizing and optimizing D365 solutions to improve operational efficiency. Proven ability to analyze business requirements and deliver seamless implementations that streamline financial and operational workflows.

WORK EXPERIENCE

TECHNICAL CONSULTANT

Axiom Consulting Pvt. Ltd

April 2023 - Present

- Developed SSRS reports, customized modules, and implemented integrations across diverse industries, including pharmaceuticals, CPG, law firms, automotive, manufacturing, retail, and jewelry, during tenure at Axiom Consulting Pvt. Ltd.
- Done the integration of e-invoicing solutions (e.g., ClearTax), ensuring 100% compliance with regional tax regulations and automating invoice generation for over 50,000 transactions monthly.
- Improved data migration efficiency by 25% by optimizing data mapping processes and staging tables during integration with legacy systems.
- Delivered end-to-end integration projects—from requirement analysis and solution design to implementation and post-go-live support—resulting in a 20% reduction in system downtime.
- Monitored and optimized system performance post-implementation, resolving 95% of issues within SLA and maintaining 99% system uptime.

PROJECTS

- Implementation (Coke India, Windlas Biotech, Shantanu and Nikhil (ABFRL))**

Led end-to-end implementation of Microsoft Dynamics 365 Finance and Operations, covering requirements gathering, system design, customization, integration, deployment, and post-go-live support.

- Support (Coke India, UNIBIC, TCNS, Sonepar India, Senco Gold, SAMCO, Joyalukkas, ABFRL)**

Provided technical support for Microsoft Dynamics 365 Finance and Operations, ensuring system stability and optimal performance. Skilled in diagnosing and resolving system issues, implementing enhancements, customizing solutions, and maintaining integrations with third-party applications.

- O-Locker Integration (SENCO Gold)**

Developed a single batch job to integrate D365 F&O with O-Locker via REST API. Handled JSON payload creation, API authentication, request/response processing in X++. Ensured secure, scheduled data sync with O-Locker using custom service classes and contracts.

- E-Invoice Integration (UNIBIC)**

Successfully automated IRN generation and invoice printing for sales, purchase, Microsoft Dynamics 365 Finance and Operations with GSP APIs. Ensured seamless data transmission, compliance with government regulations, and reduced manual effort by streamlining the invoicing process.
