PROFESSIONAL SUMMARY

Technology Business Analyst with experience delivering ERP implementations and business process transformation initiatives within consulting environments. Background in stakeholder management, requirements gathering, and enterprise system deployment. Former Deloitte consultant returning to the workforce following completion of a full-time family caregiving commitment.

PROFESSIONAL EXPERIENCE

Family Caregiver

Buford, GA | 2022–Present

- Served as primary caregiver for an immediate family member during a critical medical period.
 - Managed scheduling, care coordination, and operational logistics.
 - The situation has stabilized, enabling full return to the workforce.
-

Deloitte – Technology Business Analyst

Atlanta, GA | 2021–2022

- Led procurement workstream for enterprise ERP implementation (Infor M3) supporting large-scale business process transformation.
 - Conducted 20+ stakeholder interviews and process-mapping workshops to define functional and operational requirements.
 - Delivered gap analyses and functional specifications, minimizing system customization and improving platform scalability.
 - Partnered with solution architects and engineering teams to align technical design with business objectives.
 - Directed User Acceptance Testing (UAT), pilot programs, and knowledge transfer, accelerating user adoption and go-live readiness.
-

LeanSwift – Implementation Consultant

Alpharetta, GA | 2019–2021

- Managed end-to-end ERP implementations, from requirements gathering through configuration, deployment, and post-go-live optimization.
 - Translated complex business needs into system configurations and process improvements, increasing operational efficiency and platform adoption.
 - Monitored implementation KPIs and adoption metrics, delivering executive-level reporting to guide strategic decisions.
 - Designed and delivered training programs (on-site, webinar, eLearning) to accelerate enterprise change adoption.
 - Collaborated with sales and business development teams to refine value propositions and strengthen client retention.
-

Belk – Floor Lead

Atlanta, GA | 2014–2019

- Led team of 10+ associates, increasing sales performance by 15% through operational improvements and team coaching.
 - Analyzed sales and performance data to identify process gaps, driving 10%+ improvement in marketing ROI.
 - Standardized reporting processes and streamlined operational workflows, reducing administrative processing time.
-
