

GOWTHAMAN S

Google Workspace Administrator | Cloud Support Engineer

+91 9345339796 | gowthamansk123@gmail.com | [linkedin.com/in/GowthamanS](https://www.linkedin.com/in/GowthamanS) | Salem, Tamil Nadu

PROFESSIONAL SUMMARY

Google Workspace–certified Cloud Support Engineer with 1+ year of hands-on experience administering Google Workspace environments for enterprise clients. Proven track record in managing user accounts, groups, shared drives, email routing, and security policies at scale. Adept at resolving email delivery issues, enforcing compliance controls, and onboarding/offboarding users efficiently. Experienced in SLA-driven incident management, ticketing (Jira/Freshdesk), and root cause analysis. Seeking a Google Workspace Administrator / Cloud Support role where I can deepen domain expertise and drive reliable collaboration services.

GOOGLE WORKSPACE CORE COMPETENCIES

User & Group Administration: User provisioning/deprovisioning, OU management, group creation, role assignment, license allocation

Email & Routing: MX records, SPF/DKIM/DMARC configuration, email routing rules, spam policies, mail delivery troubleshooting

Security & Compliance: 2-Step Verification enforcement, context-aware access, data loss prevention (DLP), audit logs, admin alerts

Drive & Collaboration: Shared Drive management, sharing policies, Meet hardware administration, Calendar resource setup

Migration & Integration: Email migrations, domain verification, Google Cloud Directory Sync (GCDS) concepts, SSO/SAML awareness

Admin Console: Organizational units, app management, endpoint management, mobile device policy enforcement

Reporting & Monitoring: Admin reports, usage dashboards, audit trails, proactive issue monitoring

TECHNICAL SKILLS

Cloud Platforms: Google Cloud Platform (GCP), Microsoft Azure, AWS (Basics)

Hosting & Control Panels: cPanel, Plesk — server configuration, uptime management

Networking & DNS: DNS (A, MX, CNAME, TXT records), TCP/IP, DHCP, SSL/TLS certificate management

Operating Systems: Linux (command-line administration), Windows Server

Ticketing & ITSM: Jira, Freshdesk — incident logging, SLA tracking, escalation management

DevOps (Basic): Docker, Kubernetes (Minikube), Git, GitHub Actions

Scripting: Python (automation basics), Google Apps Script awareness

Productivity: MS Office Suite, Google Workspace apps (Gmail, Drive, Docs, Sheets, Calendar, Meet)

PROFESSIONAL EXPERIENCE

Support Engineer — Cloud Reign Technologies

Jun 2023 – Dec 2023

- Administered Google Workspace for 100+ client accounts — managing user lifecycle, group memberships, shared drives, and organizational unit structures via Admin Console.
- Resolved email delivery failures by diagnosing MX, SPF, DKIM, and DMARC misconfigurations, restoring service within SLA windows.
- Configured and managed 100+ domains and DNS records (A, CNAME, TXT, MX) across multi-client environments, ensuring zero-downtime transitions.
- Provisioned and renewed SSL certificates and coordinated hosting migrations on cPanel and Plesk with minimal service interruption.
- Handled 20–30 support tickets daily via Freshdesk/Jira, achieving consistent SLA compliance and escalating P1/P2 incidents appropriately.
- Performed root cause analysis (RCA) on recurring incidents and documented resolution steps to reduce repeat ticket volume.

- Delivered end-user support for Google Workspace — resolving account lockouts, email performance issues, Calendar/Meet problems, and Drive sharing conflicts.

Support Engineer Intern — Cloud Reign Technologies

Jan 2023 – May 2023

- Assisted senior engineers in Google Workspace onboarding for new clients, including domain verification, MX configuration, and admin setup.
- Configured DNS records and email service parameters for new hosting accounts, developing strong fundamentals in mail flow and domain management.
- Gained hands-on experience in production support workflows, SLA adherence, and professional customer communication.

CERTIFICATIONS

- Google Workspace Administrator Certification
- Google Ads Search Certification
- Cisco Certified Network Associate (CCNA)
- IBM Cloud Essentials
- Microsoft Azure Essentials
- Docker Foundations Professional
- Career Essentials in GitHub Professional
- AWS for Beginners

PROJECTS

AI-Powered Academic Guidance Chatbot

2025

- Built on Azure AI Hub, Azure OpenAI (RAG), and FastAPI, with Azure AD authentication and single sign-on — directly applicable to Workspace SSO/SAML workflows.
- Deployed on Azure App Services; monitored logs and handled runtime incidents, ensuring service availability — mirrors Workspace monitoring responsibilities.

Kubernetes-Based Application Deployment

2025

- Containerized a web application using Docker and deployed on Kubernetes (Minikube); managed pod health, service exposure, and connectivity troubleshooting.

Code Box: Online Code Compiler

2025

- Developed a React/Next.js application with Firebase Authentication, auto-scoring, and AI-assisted debugging — demonstrating full-stack cloud integration skills.

EDUCATION

MCA — Sona College of Technology, Salem

2024 – 2026 | CGPA: 7.4

BCA — Hindustan College of Arts & Science, Coimbatore

2020 – 2023 | CGPA: 8.5
