

Summary

Frontend-focused Full-Stack Developer with 2 years of professional experience in React.js, specializing in building dynamic, high-performance web applications. Proficient in component-based architecture, state management, and API integration. Currently expanding backend expertise with Node.js, Express.js, and MongoDB, developing scalable APIs and database-driven solutions. Dedicated to clean coding practices, performance optimization, and continuous learning in modern web development.

Skills

- HTML5
- CSS3
- JavaScript (ES6+)
- React
- Bootstrap & Tailwind
- Git & GitHub
- Webpack & Vite
- Responsive Web Design
- Node.js
- RESTful APIs
- Typescript
- MongoDB & Mongoose
- Agile & Scrum

Education

Kovai Kalaimagal College Of Arts And Science, Bharathiar University

B.Sc - Computer Science, CGPA: 7.6

Coimbatore, Tamil Nadu

Experience

Dreams Technologies | React Js Developer

May 2024 - March 2026

Healthcare Management - React.js, Redux, Router, REST APIs

- Developed a multi-role healthcare application with role-based login and dashboards for Super Admin, Sub Admin, Doctor, User (Patient), Clinic, and Pharmacy.
- Implemented complete appointment booking flow where doctors set available timings, users/admin schedule appointments, and prevented double booking using time-slot validation logic.
- Built teleconsultation features including Video Call, Audio Call, and Chat between doctor and patient.

Enterprise Workflow Platform - React query, esLint, Husky

- Developed scalable, component-based web applications using React.js, implementing reusable components and modular architecture to support enterprise-level business workflows.
- Integrated RESTful APIs using Axios/Fetch with Node.js backend services, handling authentication (OAuth/JWT), asynchronous data fetching, and error management to ensure reliable data flow.
- Built dynamic forms and workflow-driven interfaces with validation logic, role-based access control (RBAC), and secure routing to enhance usability and data security.
