PROFILE SUMMARY

- Procurement & Order Management professional **over 2.5** years of experience in **Procure-to-Pay (P2P)**, **EDI Order Processing**, and Supply Chain Operations in global manufacturing environments.
- Experienced in **RFQ management**, **vendor coordination**, **budget planning**, and **end-to-end PR-to-PO procurement lifecycle** using **ERP** and **Microsoft Office Suite (Word, Excel, Powerpoint, Outlook)**
- Proven ability to coordinate with **cross-functional teams**, **track shipments**, **manage** high-volume part numbers, and improve operational efficiency through process optimization and **Knowledge Transfer (KT)**.

WORK EXPERIENCE

SENIOR PROCESS ASSOCIATE

ENVISION SOFTWARE ENGINEERING

(June'25 - March'26)

- Managed order processing through **Electronic Data Interchange (EDI)** by converting Customer **Purchase Orders (POs)** into **Sales Orders** within the system.
- Ensured accurate order entry, validation, and timely processing to support seamless order fulfillment.
- Collaborated with **Sales Representatives and clients** to resolve order-related queries and ensure smooth order execution.
- Coordinated with **cross-functional teams** including logistics, finance, and operations to track and manage order progress.
- Handled **client communication and support calls**, addressing operational concerns and ensuring service satisfaction.
- Delivered **Knowledge Transfer (KT)** sessions to internal teams and new members to streamline order management processes.

TECHNICIAN

FOXCONN HON HAI TECHNOLOGY

(Dec'23 - June'25)

Projects: NPI

- Managed the **end-to-end Procure-to-Pay (P2P)** process, from demand receipt to vendor payment settlement.
- Received procurement demands from **internal users and coordinated with client** for vendor allocation from pre-approved vendor lists.
- Initiated and managed the **RFQ (Request for Quotation)** process, **collected vendor quotations**, and evaluated pricing before proceeding with procurement.
- Created and managed procurement budgets supporting **multi-million-dollar NPI** projects which ensure **cost control**.
- Generated **Purchase Requisitions (PR)** based on approved **Part Numbers (PN)** and coordinated with senior authorities for approvals.
- **Converted approved PRs into Purchase Orders (PO)** and released them to vendors through **ERP**
- **Coordinated with vendors** to obtain **ETA / ETD** details and **actively tracked shipments** to ensure timely delivery.
- Managed **warehouse inbound activities**, ensuring goods were received with the required documentation.
- Coordinated with the Finance team for **invoice processing and payment settlement to vendors**.

- Gained hands-on experience in data extraction, transformation, and loading (ETL) processes, ensuring data integrity and accuracy for analysis.
- Developed interactive dashboards using data visualization tools to support data-driven decision-making and enhance reporting efficiency.
- Conducted data extraction and preprocessing, optimizing datasets for analytical insights and business intelligence applications.
- Assisted in building and automating reports, improving efficiency and enabling stakeholders to track key performance metrics effectively.
- Supported the creation and delivery of technical presentations, incorporating visual storytelling techniques to improve stakeholder engagement by 25%.

CORE SKILLS

- Procure-to-Pay (P2P) • Order Management • Electronic Data Interchange (EDI) •
- RFQ Management • Vendor Management • Purchase Requisition (PR) • Purchase Orders (PO) •
- ERP • EDI Platforms • Microsoft Office Suite (Word,Excel,Powerpoint, Outlook) •

CERTIFICATIONS

- 1) CSCMP Supply Chain Foundations: Procurement Professional Certificate - LinkedIn | (InProgress)
- Learn supplier evaluation, strategic sourcing, and contract negotiation to optimize procurement workflows.
 - Gain knowledge in sustainable procurement practices and supplier diversity.
 - Develop skills to manage supply chain risks and build resilient operations.
- 2) Data Fundamentals - IBM SkillsBuild | Jan'25
- Developed a strong foundation in data types, structures, and analytics.
 - Gained insights into data-driven decision-making and visualization techniques
